

## Skeleton Gun for 310ml Tubes

Product SKU:	3043163
Material:	Adhesive
Colour:	Green
Weight:	0.42Kg

### Key Features:

**High-quality Skeleton Gun**, expertly designed for precision and efficiency in dispensing sealants, adhesives, and caulk. This versatile tool boasts:

**Controlled Application:** The trigger mechanism ensures a smooth and controlled flow of materials, allowing for accurate application every time.

**Durable Construction:** Built to withstand the rigours of professional use, our skeleton gun features a robust design that ensures longevity and reliability.

**Ergonomic Design:** The comfortable grip reduces hand fatigue during extended use, making it ideal for both DIY enthusiasts and professionals alike.

**Compatibility:** Perfectly compatible with standard-sized cartridges, ensuring you can use your favourite sealants and adhesives without any hassle.

**Easy to Clean:** Designed for convenience, the skeleton gun can be easily cleaned, ensuring it remains in top condition for your next project.

### Applications:

**Sealant Application:** Ideal for applying silicone, acrylic, or polyurethane sealants in construction and maintenance tasks, including sealing windows, doors, and joints to prevent air or water leakage.

**Adhesive Application:** Perfect for bonding materials like wood, metal, plastic, or ceramics in industries such as construction, automotive, and DIY projects.

**Caulking:** Essential for creating waterproof and airtight seals around sinks, tubs, pipes, or baseboards, ensuring effective moisture management.

**Roofing:** Utilised in roofing applications for applying adhesives or sealants to prevent leaks around flashings, seams, and joints, enhancing roof durability.

**Automotive Repair:** Used for applying adhesives, sealants, or sound-deadening compounds in automotive maintenance, including trim, windows, and body panels.

**Flooring:** Facilitates the application of adhesives for laying tiles, carpets, and vinyl flooring, ensuring an even and consistent spread.

**Construction and Renovation:** Ideal for both new construction and renovation projects, applying adhesives or sealants around windows, doors, countertops, and moulding.
